

Following the requirements of the Affordable Care Act (ACA), Blue Cross of Idaho has chosen to provide evidence-based preventive drug coverage at a \$0 copay. Below is the list of preventive drugs that may be available under your ACA preventive drug coverage.

The following preventive drugs are covered at 100% and are not subject to deductibles (certain restrictions apply). This list should be used as a guide. It cannot be considered a comprehensive list of drugs available or covered without cost sharing. Coverage of any of the listed drugs, including over-the-counter (OTC) drugs, requires a prescription from a licensed healthcare provider. This list is subject to change as ACA guidelines are updated or modified.

## FOR OUR MEMBERS:

- Visit an in-network pharmacy to receive this benefit.
- Show your Blue Cross of Idaho member ID card to ensure you receive the complete benefit.

**NOTE:** The terms of your health plan will ultimately determine coverage, the applicability of coverage criteria, and cost sharing.

## FOR OUR HEALTHCARE PROVIDERS:

- Please prescribe ACA medications from this list and allow generic substitutions when medically appropriate.

**NOTE:** A drug's appearance on this list does not guarantee coverage. Not all drugs listed are covered by all prescription drug plans. This list is periodically reviewed by clinical experts. Drugs may be added or removed from this list based on a clinical review of the drug's intended purpose and its availability.

MEDICATIONS	CRITERIA FOR \$0 COST SHARE	MEDICATIONS	CRITERIA FOR \$0 COST SHARE
